OVERZICHT

- ✓ Inspiratie
- ✓ Demonstratie
- ✓ Toepassingen
- ✓ Doelstellingen vs realiteit
- ✓ Extra

An abstract graphic on the left side of the slide, consisting of a network of white lines and small circles on a dark blue background, resembling a circuit board or a neural network. The lines are vertical and horizontal, with some diagonal connections, and the circles are placed at various points along these lines.

INSPIRATIE

An abstract graphic on the left side of the slide, consisting of a network of white lines and small circles on a blue gradient background. The lines and circles resemble a circuit board or a neural network, with some lines extending vertically and others branching out horizontally and diagonally. The circles are of varying sizes and are connected by thin lines, creating a complex, interconnected pattern.

DEMONSTRATIE

An abstract graphic on the left side of the slide, consisting of a network of white lines and small circles on a blue gradient background, resembling a circuit board or a neural network structure.

DOELSTELLINGEN VS REALITEIT

DOELSTELLINGEN VS REALITEIT: (NIET-) FUNCTIONELE VEREISTEN

(Niet-) Functionele vereisten

De klanten moeten zich kunnen registreren aan de hand van een registratieformulier, en de gegevens hiervan moeten bewaard worden in een database.

De klanten moeten een intakeformulier kunnen invullen en aanpassen naar aanleiding van een afspraak, en de gegevens hiervan moeten bewaard worden in de database.

De klanten moeten zich kunnen aanmelden aan de hand van hun e-mailadres en wachtwoord.

De administrators moeten een nieuwe administrator kunnen aanmaken/aanpassen/verwijderen.

De administrator moet blogberichten kunnen toevoegen, wijzigen en verwijderen.

Via een dashboard in de klantzone, moet de administrator de klanten kunnen opzoeken aan de hand van hun naam, e-mailadres of geboortedatum.

Het wachtwoord van de klanten moet geëncrypteerd worden.

De administrator moet in staat zijn om vacatures toe te voegen/aan te passen/te verwijderen aan/op/van de website.

Zodra een intakeformulier werd ingevuld, moet dit worden opgeslagen in een lijst in de AdminZone.

De administrator moet in staat zijn om externe partners toe te voegen/aan te passen/te verwijderen.

De administrator moet in staat zijn nieuwe posts op de homepage te laden verschijnen/aan te passen/te verwijderen
